These expectations apply not only at school but at any time when a student is wearing the College uniform, travelling to or from school, or at a College sanctioned event. Students are required to be courteous and respectful towards staff, parents, members of the community and other students.

A friend of mine was in the hospital awaiting the arrival of her first child. When I telephoned the hospital to see if the baby had arrived, the nurse said it had. I asked if it was a boy or girl and was told that it was against hospital policy to give this information over the phone. "Fine," I said, "I can understand that, but can you tell me what she didn't have?" "It wasn't a boy," came the reply.

God bless.

Mrs Maria Bochrinis - Uniform Shop Manager
This year I had a fantastic opportunity to participate in Aspire UWA. Aspire UWA is an organisation set up by the University of Western Australia to help promote university life to high school students. It helps to motivate students to do well in school and try for university. University is a wonderful opportunity for anyone and everyone. Aspire has definitely encouraged me to try to aim for university.

With Aspire you learn all about the possibilities and courses that you can pursue at university. I have learnt all about Physics and the Arts. I also learnt that doing a Bachelor of Arts can come in handy for loads of career options. I have participated in taster courses and all of them were really enjoyable, it just goes to show that university can be fun as well.

The social aspects at university are fantastic too (another thing learnt from Aspire)! There are lots of clubs that you can join, like the Electronic Music Appreciation Club. All Aspire Advocates learnt a little bit about this club and we even got to have a go at mixing music on DJ decks. Even though you study something that doesn’t restrict you from doing other activities at university.

On 10 November, some lucky Year 7s, got selected for an Aspire UWA incursion and workshops. The two workshops we did was Footsteps to your Future and a maths and robotics workshop. The maths and robotics workshop was really fun, they sent the message that maths is used in most careers and you need to know it. They didn’t say you have to learn to love it but they said that you had to understand its importance in the world. The robotics was really fun and we got to do some coding which wasn’t as easy as it looks. Coding and computing is probably a job of the future so that experience was amazing!

Some other lucky Year 7 and 8 girls were selected for the 2016 Aspire Girls in Engineering. This was all about getting girls into male populated jobs like engineering. It was interesting and we learnt all about the different fields of engineering whilst having fun.

If you get the opportunity to participate in Aspire UWA I would recommend doing so as it is a wonderful experience. My favourite Aspire activity was listening to a talk by Alan Cransberg a highly prestigious man (former managing director of Alcoa and Chairman of the West Coast Eagles Football Club) who is an Alumni of UWA. He explained that university opened up endless possibilities and he used this to harness many jobs. He is currently retired at a young age and travelling, because he has worked hard and earnt enough money to do so.

YEAR 11 ASPIRE CAMP
On 17 August, fifteen students were fortunate enough to be given the opportunity to represent La Salle College on the UWA Aspire Camp. The overnight camp provided us with an opportunity to reflect on our university aspirations and goals, before exploring the UWA campus and selected disciplines.

The first day of the camp focused on how we could aspire to be leaders and efficient team workers with a range of activities that were fun, engaging and stimulating. One of the main activities we did that night was with our assigned groups, where we took on the responsibility of a cart crew and had to dissemble and assemble a specifically designed cart. This cart came with tedious rules and procedures, and the aim was to be the fastest but also assembling it back to perfection. To make it more difficult, there were added procedures, so as a group we had to think of efficient ways to be the quickest which resulted in trial and error.

The second day of the camp we headed to UWA to experience a day of life as a university student. At the campus we were divided into four groups based on our interests; Arts, Science, Design and Commerce which corresponds to the four Bachelor areas at the university. From there, we participated in different activities according to our groups and then, we were fortunate enough to hear from three speakers that told us about their university experiences and path choices.

Overall, the Aspire Camp was a fun and stimulating experience which we all will cherish, and we are very grateful to Ms Noble for accompanying us on this camp.

Good luck to Year 10 student, Luke Skehan who heads to Brisbane in early December to represent the Midland Cycling Club at the National Junior Track Cycling Tournament. Good luck Luke!
YEAR 8 CHINESE INCURSION

Year 8 students studying Chinese thoroughly enjoyed their incursion, immersing themselves in Chinese culture. The experience started with a traditional lunch followed by cultural entertainment which was provided in periods 5 and 6. A big thank you to Ms Yu for organising the fun.

The students took part in an interactive workshop with experts in the Chinese Lion Dance. The sacred rituals and lion costumes are closely guarded cultural icons, but our students got to try the lion costume and musical instruments and learn the rituals. This was a once-in-a-lifetime opportunity.

Some comments from the students:
"The whole incursion was great fun. It was so different and that made it interesting."
"The lion dance is quite hard and you have to be fit."

Mrs Colleen Wheeler
Learning Area Coordinator – English & Languages

YEAR 8 ITALIAN INCURSION

As part of instilling in students an appreciation of the Italian culture, all Year 8 Italian classes were involved in an incursion on Friday 21 October. The incursion commenced in Period 5 with a traditional Italian lunch of pizza, lasagna, cannoli and gelato. Students were then entertained in Period 6 by Cultural Infusion’s Commedia dell’Arte performance of ‘The Greatest Pie in the World’. Traditional masks of the Commedia dell’Arte characters, dramatic and clever comedy, hilarious jokes and songs and student participation made for a very enjoyable event. Students are to be commended on their excellent behaviour and participation in both cultural experiences.

Some comments from the students:
"There was lots of Italian food and the play was funny and enjoyable." (Sophie Appelbee)
"The catering for the incursion was the best and the play was very witty and engaging." (Joseph Lyon)
"The Italian Incursion was very entertaining. The play was enjoyable to watch and the food was delicious." (Nicola Hoglin)
LANGUAGES

YEARS 9 & 10 ALC ITALIAN CERTIFICATES
In August of this year, all Year 9 and Year 10 Italian students participated in the Assessment of Language Competence (ALC) Italian tests, designed to assess language competence in Listening and Reading tasks. These tests contribute to the promotion and celebration of Languages education and provide an overview of a school’s performance against national standards. Recently, students received their results and certificates outlining their achievements. All students are to be commended on their individual performances, with special congratulations to the following students for achieving a Distinction (D) or High Distinction (HD):

KEYS FOR LIFE LEARNING TO DRIVE PROGRAMME
This term the Year 9s have taken part in the Keys for Life learning to drive programme. During Week 4 we were privileged enough to have a guest speaker come and talk to us about his experiences as a driver. The guest speaker’s name was Angelo. As a driver you always have to make decisions. These decisions are usually quick on the spot decisions, which can impact your life greatly. Angelo talked to us about a decision that he made that dramatically changed his life. Angelo was driving home and through no fault of his own was hit by another car. He made the decision to take his motorbike instead of his car, and as a result of this accident he was left paraplegic.

Angelo’s story was very moving and it made me realise how quickly your life can change. I drew great inspiration from Angelo’s strength and how he has such a positive outlook on life. It made me realise that even though you may be doing all of the right things and we always think that it will never happen to us, how quickly your life can change.

Thank you Angelo for sharing your story with us.

SACRED HEART MARKETS

ACTIVE READING – ACTIVE MIND
Engaging our students in active reading is a key focus of the Year 7 – 9 Reading programme. Teacher Librarian, Ms Margret-Ann Lieuwes, developed an incentives-based programme for this year's Reading classes promoting a range of good reading options for students. In addition, students come to the iCentre's Reading Lounge, a comfortable learning environment that has a positive effect on students engaging in reading.

When a student makes a statement that reading is 'boring' what they are really saying is that they find the process of reading and comprehension difficult and time-consuming. Teaching our children to become good readers is vital if they are to achieve success. We know that comfort has a positive effect on learning, productivity, and creativity, but the educators play a pivotal role in guiding each child’s reading experiences. A student who is motivated to read, both for pleasure and as part of their academic studies, is one who will most certainly achieve success.

I take this opportunity to sincerely thank Ms Lieuwes and the teachers who supported her in delivering the 2016 Reading programme, Ms Alison Barker, Ms Tegan Fairbairn, Ms Kristie French, Mr Matthew Pinkerton, Ms Michelle Vaughan, Ms Ana Vranjes, and Ms Zola Watson who all worked hard this year to promote reading as an enjoyable activity worthy of developing into a lifelong habit.

Exams are just around the corner

Here are some tools and a caution.

**SEQTA**
- Student URL: [http://learn.lasalle.wa.edu.au](http://learn.lasalle.wa.edu.au)
- Parent URL: [http://engage.lasalle.wa.edu.au](http://engage.lasalle.wa.edu.au)
- Look on SEQTA for study resources such as past papers and notes. One click to download.
- Ask your teacher to open a forum for your class where you can ask questions and everyone can reply or see the answers.
- Don’t waste your time staring at your marks to date. Use the time to get better marks on the next task.

**Memory Card Files**
- Use a question and answer card system to drill that knowledge in.
- Quizlet and Study Stack are good ones. Just Google the names.
- Use a partner to set up cards so you can test each other.
- Share the resource you made with classmates.

**Mind Map Tools**
Arrangement of a body of knowledge according to headings and sub headings is a big step towards cognitive organisation and hence to successful memory.
Bubbl.Us and Popplet are good ones. Again, easily Googled.
**Infographics**

- Just ask the Year 7s about this!
- An infographic can help you set out everything you need to know about your topic in an attractive and organised way.
- You can do it in Microsoft Word, or use one of the many online Infographic makers, such as Canva.com or Easel.ly.
- The one on the right was produced by a Year 7 student using Microsoft Word.

**Online collaborative space**

A free OneDrive account – or, alternatively, a Google account – will give the student the ability to create an online document in Word (or Google Docs) and share it via a link. Students can then contribute to the same page. It’s a great way to do group work without any one member having sole custody of the document. It’s also a great way to have ‘two heads better than one’, without physical proximity.

**Children and teens need between 9 to 10 hours of sleep a night.**

*One of the biggest reasons for poor school and sporting performance is due to sleep deprivation. Too many teens are woken multiple times at night, with the ‘beep beep beep’ of Facebook or email alerts.*

**Get Technology out of Bedrooms**

Get technology out of bedrooms and into public areas at home. That goes for iPods, tablets and phones too.

Mr Andy Vella
ICT Across the Curriculum Coordinator
