

Welcome to our Parents & Friends Association

We are a group of parents and carers who work in co-operation with the College to support our students and families, engage with communities and help support those in need.

5 reasons to get involved

1. Meet other school families, make friends and be part of a caring community.
2. Show support and interest in your child's educational journey by being involved with their school community.
3. Get to know College staff and engage in discussion, feedback and planning from a family perspective.
4. Help raise funds towards school resources and for those in need.
5. Demonstrate the value of helping others by volunteering and being positive role models to our children and community.
